

We understand how precious and important your car is to you - it is the most expensive consumer purchase many of us make. We treat all vehicles with the same care and respect, whether it is a cherished classic VW Beetle, a reliable Golf GTI, or an Audi A6 used for business.

Established in 1980, our main workshop is located in the Horfield area of Bristol. We have a thirty year heritage of being Volkswagen Audi Group (VAG) specialists. As such we are highly experienced in the repair, parts replacement and servicing of the entire range of VAG makes and models. Our many years of expertise, working on these respected brands, makes us the leading independent specialists for VAG vehicles in the Bristol area.

Our team of trained, qualified, reliable and trustworthy technicians and mechanics have secured solid customer and key stakeholder relationships over our 30 year heritage. Confidence in our service quality, advice integrity and competitive pricing has resulted in a significant number of our customers staying loyal to us for over ten years.

Whilst we do not buy or sell vehicles we can recommend those known locally and in whom we have confidence, who can address your needs.
