

We cater for various performance modifications including:

### **Suspension upgrades and set up**

-

Installation, track and race setup and corner weighting services.

-

Suppliers - KW, Weitec, Powerflex, Vibrotechnics, Bilstein.

### **Chip tuning**

-

By Custom Code - generic and fully custom remaps available.

-

We can carry out tuning/chipping to all types of VAG (Volkswagen Audi group cars), including

Porsche Lamborghini and KTM.

## **Exhausts**

-

Custom exhausts available.

-

We are also a Miltek dealer.

## **Improved performance**

-

DPF Removal - we remove Diesel particulate filters and remap the car to remove all the associated problems. This modification can result in an increase in fuel economy and significant performance boost.
